Subject:

Consideration to Award a Bid to Premier Vehicle Installation

Background/Alternatives:

Four trucks have been ordered to replace aging police vehicles. These vehicles will need to be upfitted with Police vehicle equipment once they arrive. The upfitting will be a part of the lease so it will not be a direct expenditure. Five bids were received for the upfitting the lowest bid did not include some of the specified equipment. The next lowest bid was from Premier Vehicle Installation. The bid uses a different brand of light control system than what was in the bid specifications. Staff has reviewed the proposed equipment and have found it provides equivalent performance to the brand that was specified. Staff is recommending to award the bid to Premier Vehicle Installation.

Bid Tab

Fiscal Impact:

The upfitting cost for all four vehicles is \$65,455.68. This will be incorporated into the new police vehicle lease agreement.

Staff Impact:

Functioning well equipped vehicles are essential for the Police Department's mission and enables the officers to respond to emergencies in any condition at any time. Proper upfitting enhances safety by increasing visibility during emergency response and providing safe and efficient access to equipment carried in the vehicle.

Legal Review: n/a

Suggested Motion:

I move to award the bid to Premier Vehicle Installation for the upfitting of four Police Department vehicles, in the amount of \$65,455.68.
