# City Administrator's Report

## Honorable Mayor and Council Members:

The operating budget, which will be reviewed during the next several weeks, represents the proposed policies and plans for the City of Green River in the upcoming fiscal period, 2007-2008.

The following booklet is designed to give you and the citizens of our community an overview of the actual budget. The budget is arranged by funds. Each fund is a self-balancing set of accounts designed to report on activities by the City. The largest fund is the General Fund. Much of the traditional work of your local government is carried out in the General Fund, which includes the Police and Fire Departments, Streets, and Parks Departments. It also includes Mayor and Council, City Administrator, Municipal Court and Legal Services, as well as Human Resources, Finance, Community Development, and Fleet Maintenance.

The money to operate the General Fund comes from a variety of sources, which are predominately controlled by the State of Wyoming through legislation. The largest single source of revenue to the General Fund is Sales and Use Tax, which is comprised of a 4% state rate and a 1% local option rate. Because the state distributes only a portion of the 4% state rate back to municipalities, this generates approximately the same amount as our 1% local option rate.

Estimated revenue has been provided by WAM through their projections for shared revenue from the State of Wyoming.

This money is due to the lobbying efforts by local elected officials with their legislators to provide a more stable revenue stream from the State of Wyoming. After the de-earmarking legislation passed six years ago, cities and towns across Wyoming find themselves in desperate need of additional revenue. This includes the City of Green River.

This year's projected revenue in the General Fund totals \$21,063,670, which represents an increase of 25% from the previous year. Most of the increase is due to higher than expected sales tax receipts and direct appropriation from the legislators to the City of Green River. The City will receive \$1.2 million on August 15, 2007.

Like the State of Wyoming it is prudent to have an ending fund balance that would allow the City to deal with programs and projects throughout the year. The State has its Permanent Mineral Trust Fund; we have set up an operating reserve which is 25% of operating expenses as directed by the Governing Body.

The Wage and Benefit Committee along with the Insurance Committee and Employee Relations have been meeting over the last three months to analyze the wages and benefits. Sessions have been prepared to review all personnel issues: salaries, benefits, promotions, new position requests, and insurance.

Expenses in the General Fund and throughout all the funds are shown in three major areas. Personal Services include salaries, retirement benefits, health insurance, and payroll taxes for full-time employees and salaries for part-time employees. Operation and Maintenance includes the cost of doing business on a daily basis: gas, oil, lubricants, training, supplies, repairs, etc. The third category, Asset Acquisitions, includes major purchases such as cars, trucks, mowers, and containers.

Departments were allowed to increase their operational section by an inflationary cost of living of 6%. Some line items are higher due to utility costs in various departments. Also, all department line items were reviewed by the Director of Finance, Jeff Nieters, and me, using various guidelines developed through the ECB process. This has enabled me to adjust line items on a more historical spending pattern.

All Asset Acquisition requests were presented to me and the approved acquisitions are shown on the department sheets.

Training and Travel budgets were increased throughout the department's budgets. This represents a 32.7% increase.

## General Fund

Expense issues in the General Fund that the Governing Body will address are as follows:

- 1) Legislative (110) Mayor & Council – All requests from the Community Development groups have been included in the budget. Future's request decreased and the Russ Reid Contract was cut. No Asset Acquisitions were listed.
- 2) Municipal Court (120) – Budget submitted by Judge Beckum is being forwarded as presented; no cuts.
- 3) City Administrator (130) – No changes from last year and no Asset Acquisitions. I would like to discuss the Public Information/Communication options
- 4) Human Resources (140) – There are no new programs recommended. Recruitment and advertising costs have increased, and an auto allowance has been budgeted for the Director.
- 5) Accounting (150) – Vault records update is the main increase from last year, and an auto allowance has been budgeted for the Director and Supervisor.
- 6) Information Technology (155) – New personnel and operational changes. We continue to upgrade to new computers and software by departments each year.
- 7) Purchasing/Payroll (160) – No major changes from last year. An auto allowance has been budgeted for the Supervisor.
- 8) Legal Serves (170) – No changes from last year.
- 9) City Prosecutor (175) – Budget presented as submitted

- 10) Public Safety, Police (210 – 275)

| m. | Weed Abatement         | No changes                             |
- 11) Emergency Management, Fire (310 – 330) – Operations same as last year. Assets include turn out gear, radio equipment, and pagers. Lease/Purchase new Ladder Truck
- 12) Community Development (410) – Need to review personnel needs. Costs increased by 82%.
- 13) Public Works (510 – 580) – No major changes in any of the operational costs per division. Review asset requests and personnel changes
- 14) Parks & Recreation (610 – 670) – Major personnel and program increases!

## Capital Projects Fund

The next major fund is the Capital Projects Fund. This fund is supported by match grants and money transferred from the General Fund. The Capital Project Fund provides for the construction and major repairs of streets, parks, utility lines, and facilities. I reviewed the projects with each department and a final draft list was developed. Total cost equals \$20,655,918, larger than the entire General Fund. Need to review.

## Enterprise Funds

Water, Wastewater, and Solid Waste are additional large funds that support their respective programs. The last three are designed to function solely on the revenue from fees, without a transfer or subsidy from the General Fund for their operations. In fact, the Water and Wastewater Funds transfer money to the Capital Project Fund for the replacement of infrastructure during the street improvement and replacement programs. Rate increases are being proposed this year; 5% for water creates only \$323,100. A sewer increase of \$3 would generate \$150,000.

## Risk Management Fund

The final fund is the Risk Management Fund. To operate this fund we need \$190,000. Four years ago we placed \$2.5 million dollars in this fund to serve as a reserve fund, using the interest off that amount to operate the fund.

This year like last I recommend that we place \$1 million in this Fund I would also like to revisit the concept of using this fund as a reserve fund.

## Summary

The budget for the City of Green River should be the working document that makes your goals happen. A goal must have a plan and have resources to use in order for it to become reality.

As you look over this proposed budget, keep in mind your goals; are the dollars there to “make it go?”

Also keep in mind what City Government is all about. We provide services 24/7 to the citizens of Green River. This also takes dollars to support your employees and the operational costs that many times are looked at as a given and don't show up on the goals list in the Council Chambers. Service levels and what it costs to provide that service needs to be looked at together with new projects. We don't want to expand to the point where we cannot support the core of the community.

I will conclude with the same statement I do every year at budget time. The key question the Governing Body needs to continue to ask throughout the year is should the City be doing this?
